

JAGUAR are small spot fittings designed for both indoor or outdoor installations and are particularly suitable for highlighting areas with dramatic effect.

They are available in three versions:

**JAGUAR 01/02** for PAR 38 lamps

**JAGUAR PA38** for PA38 lamps, completely made from corrosion resistant technopolymer, suitable for sea climate

**JAGUAR 92/19÷23** for dichroic and low voltage halogen lamps without electrical components.

**JAGUAR 92/25÷32** same as 19÷23 version, but with electrical components already included.

*JAGUAR Luminaria pequeña spot para interior y exterior, para acentuar áreas.*

*Se disponen tres versiones:*

**JAGUAR 01/02** para lámparas PAR 38

**JAGUAR PA38** para lámparas PAR 38, de tecnopolímero completamente preparada para ambientes marinos.

**JAGUAR 92/19÷23**, para lámparas dicróicas y halógenas de baja tensión, sin componentes eléctricos.

**JAGUAR 92/25÷32**, igual que las versiones 19÷23, con equipos incluidos.

# JAGUAR 92

SBP

design Arch. Silvia Paola Pennacchio

**STRUCTURAL CONSTRUCTION**

**JAGUAR 01-02:**  
junction and electrical connection box made in polyamide, aluminium body, silicone gasket.

**JAGUAR PA38:**  
made completely in polyamide, they are particularly suitable for operating in sea side applications and in contact with chemical polluted substances.

**JAGUAR 92/19+23:**  
junction and electrical box compartment made in polyamide, body and glass fixing rings in aluminium, silicone gasket, safety toughened glass, stainless steel external screws.

**JAGUAR 92/25+32:**  
same as 19+23 version, but including the polyamide electrical components box. Possibility of connection in series by using A0167 accessory.

**REMARK:** For all versions:  
Ground installation is not allowed.  
For the direct ground installation use only A0071 or A155 accessories.

**CARACTERISTICAS DE FABRICACION**

**JAGUAR 01-02:**  
caja de unión y conexión eléctrica de poliamida, base en aluminio, junta de silicona.

**JAGUAR PA38:**  
fabricado totalmente de poliamida, para medio ambiente marino y agentes químicos polucionantes.

**JAGUAR 92/19+23:**  
unión y caja de conexiones en poliamida, base y aro de sujeción vidrio en aluminio, junta de silicona, vidrio templado securizado, tornillos externos inox.

**JAGUAR 92/ 25+32.**  
similar a versión 19+23, pero incluye caja de componentes de poliamida. Posibilidad de conexión serie utilizando accesorio A0167.

**NOTA.** Todas versiones No está autorizada la instalación sobre Tierra. Para instalaciones directas en tierra (suelo) utilizar los accesorios A0071, o A155.
